

HORSE STALLS AND ARENAS

STALLS

Our horse stalls can be erected as either free-standing modular unit or as a permanent installation utilising the internal structure of a barn or shed. The stalls provide separation from other animals and in the case of internal installations, protection from the elements.

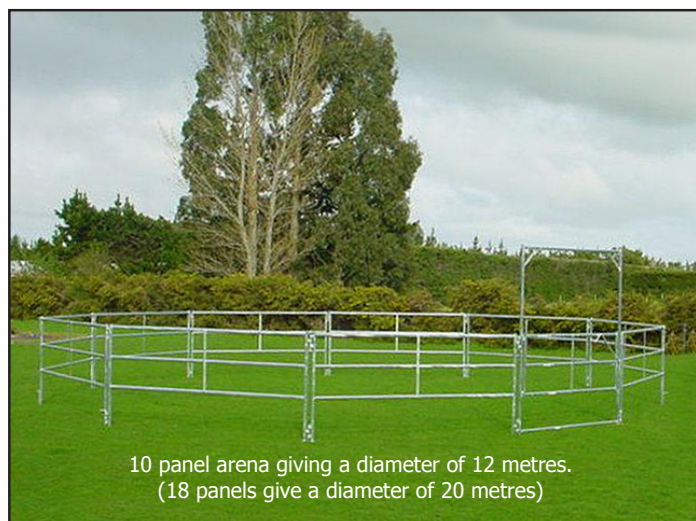

FEATURES

- All steel is galvanized to prevent rusting
- Plywood is treated for outdoor use
- Plywood edges are not accessible to horses
- Easy slide door
- Panels heavy enough to prevent movement by a horse
- Stand-alone modules can be added
- 4m X 4m gives horse plenty of room

ARENAS

Our horse arena provides a safe and convenient facility to exercise your horses and the ease of erection and relocating give you the freedom to choose the most suitable site for any particular occasion.

FEATURES

- All steel is galvanized to prevent rusting
- Easy to erect and move
- Panel size 3.4m width X 1.6m height
- Construct to required diameter using extra panels
- Entry gate in frame for greater stability

Pricing:

Panel	\$240.00
Entry Gate	\$390.00
Hold down pins	\$15.00 (each)
